

Relax...

That's why we're here!

We created Log Cabins For Less for budget minded folks, who expect quality materials at a fair price. Our customers can choose from one of our floorplans, or bring us their own. And if they don't have one, our in-house design team will work with them to get the plan they've always dreamed of.

After your log home package has been delivered, we continue to work with our customers, providing them additional building products for their new log home. Quality products such as tongue and groove siding for the interior walls, knotty pine interior doors, and log railing, just to name a few.

Here at Log Cabins For Less, we don't build log homes, we build relationships.

- Quality Sashco products to protect your dream log home

In addition to providing log cabin kits, Log Cabins for Less can also provide you with whatever you need to complete your new log cabin, such as:

Tongue and Groove Siding

- Match the inside of your log walls with quality kiln dried tongue and groove siding. Available in 1x6, 1x8, and 1x12. Choose from Eastern White Pine, Western Red Cedar, Spruce, Cypress, as well as Inland Red Cedar for the closets, for that aromatic smell.

Log Siding - Match your detached garage or outbuilding, to your new log cabin. A perfect fit.

Knotty Pine Doors - Nothing adds more to give your new log cabin that rustic touch than knotty pine doors. Choose from 2 panel archtop, 2 panel squaretop, or 6 panel knotty pine doors. Matching closet doors too, with your choice of hinge finish, at no extra charge.

Log Railing - Choose from 3 or 4 inch Northern White Cedar railing to complete your home. Both can be used interior or exterior, with your choice of wood or black tubular metal spindles.
